

## Press Release

### Cancellation of the 57th edition of the Bièvres International Photo Fair

Every year since 1964 we have devoted a great deal of pleasure and enthusiasm to the organisation of the International Photo Fair. Unfortunately this year, due to the difficult public health situation in France and in Europe and the ensuing restrictions, the organisers have been obliged to cancel the 2020 edition of the Fair.

The organisers have announced «We are devastated for the exhibitors, all our partners and sponsors, for the general public and for the media who support us in publicising the event. It is bad news for all of us but we know how attached you are to the Fair and we look forward to seeing you at the 2021 edition!»
